SAT and ACT prep - Small Group or 1 on 1 - **Basic and advanced strategies**

We prepare students by:

- Customizing programs to help each student find the best strategies for them.
- Studying real SAT content from The College Board to help students get a good feel for what to expect on the actual test.
- Focusing practice activities on specific skill areas that need improvement.
- Helping students determine the best way to pace themselves on different sections of the test.
- Proctoring full-length timed mock tests to give students a measure of their progress in the program.
- Thoroughly evaluating each mock exam and reviewing the results with the student. This includes suggesting new strategies as well as tweaking existing ones as appropriate.
